## Welcome

from the Show Director

**It's a pleasure to welcome both our valued exhibitors and visitors to this year's show—and a special welcome to those joining us for the first time.**

This year's edition marks a significant milestone as we host the event at Lanseria International Airport for the first time. The move to Lanseria is an important step in the growth of AERO South Africa, offering improved access, facilities and opportunities for the general aviation industry to connect, do business and grow.

This year's edition brings together a wide range of exhibitors, from aircraft manufacturers and maintenance providers to avionics and training organisations. With a strong business-to-business focus, AERO South Africa continues to provide a professional platform for networking, product launches, knowledge exchange and industry engagement.

To our exhibitors, thank you for your continued support and for showcasing the very best of general aviation. To our visitors, we hope the next three days are filled with meaningful connections and valuable networking opportunities.

Thank you for being part of AERO South Africa 2025. We look forward to growing the industry together.

**Louise Olckers**

Show Director – AERO South Africa

Messe Frankfurt South Africa

# WORLD AIRNEWS

CONNECTING SKIES • BRIDGING CONTINENTS

## TAILOR MADE AVIATION NEWS

**World Airnews is a globally recognised aviation, aerospace and defence publication, proudly produced in Africa and read worldwide.**

**For over five decades, we've reported on the people, technology, and trends shaping the skies — from airliners to airshows, innovation to infrastructure, defence to drones.**

- Official AeroSA Media Partner
- Monthly Print (on request) & Digital Editions – internationally distributed
- 18,000+ verified subscribers across the global aviation community
- Daily industry news and updates across web and social platforms

Whether you're launching a product, amplifying your brand, or expanding into new markets – World Airnews is your platform for visibility and connection.  
Let your message take flight.
