# LIFT OFF

## Welcome

from the Show Director

**It's a pleasure to welcome both our valued exhibitors and visitors to this year's show—and a special welcome to those joining us for the first time.**

This year's edition marks a significant milestone as we host the event at Lanseria International Airport for the first time. The move to Lanseria is an important step in the growth of AERO South Africa, offering improved access, facilities and opportunities for the general aviation industry to connect, do business and grow.

This year's edition brings together a wide range of exhibitors, from aircraft manufacturers and maintenance providers to avionics and training organisations. With a strong business-to-business focus, AERO South Africa continues to provide a professional platform for networking, product launches, knowledge exchange and industry engagement.

To our exhibitors, thank you for your continued support and for showcasing the very best of general aviation. To our visitors, we hope the next three days are filled with meaningful connections and valuable networking opportunities.

Thank you for being part of AERO South Africa 2026. We look forward to growing the industry together.

**Louise Olckers**

Show Director – AERO South Africa

Messe Frankfurt South Africa

## ABOUT US

Air Traffic and Navigation Services SOC Limited (ATNS) provides air traffic, navigation, training and associated services within South Africa and a large part of the Southern Indian and Atlantic Ocean, comprising approximately 6% of the world's airspace. ATNS operates from nine ACSA and 12 other aerodromes. As a globally competitive employer of choice, ATNS is committed to diversity and has achieved ranking within the top 10 companies in South Africa with regards to female representation at executive levels.

## OUR VISION

# The Business of Aviation in Africa

African Pilot Magazine is centred around those who fly and those who make flight possible: *connected, innovative, and influential.*

Access our monthly magazines by scanning the QR-Code or following:

<https://fly.africanpilot.africa/mag-aerosa2026>

We serve both business-to-business and business-to-consumer audiences, showcasing the continent's opportunities to the global supply chain while bringing suppliers and solutions directly to Africa's decision-makers.

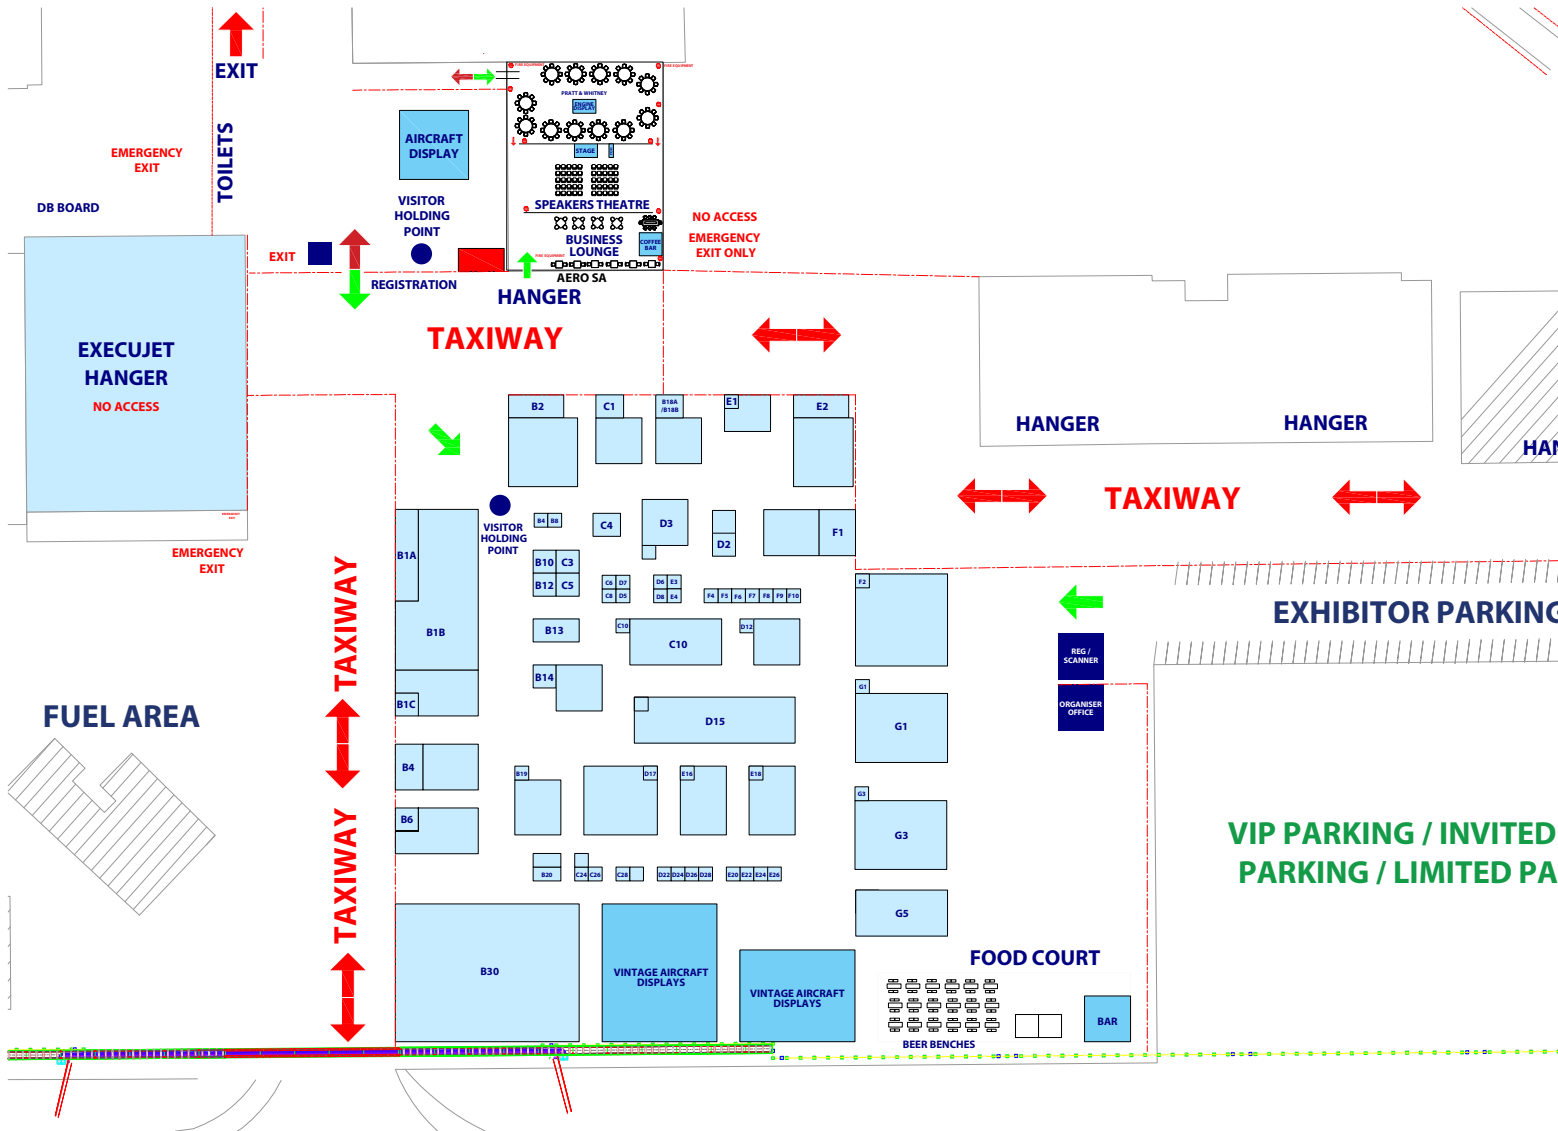

**For those who fly to those who make flight possible.**
